

# International Ethernet Link

extend your LAN for **international reach** with complete **transparency**

“Choosing International Ethernet Link accelerated the growth of our company internationally by interconnecting every subsidiary in the world for better data flow.”

## highlights

- international expansion for corporations of all sizes requires high-speed interconnectivity for principal sites
- International Ethernet Link is a point-to-point ethernet connection that gives international sites the same flexibility and ease of use as an extended LAN
- we can incorporate your existing equipment and provide standard ethernet-compliant interfaces as well as high bandwidth and extensive coverage at affordable prices
- take advantage of our rapidly growing ethernet network interconnection service backed by the guaranteed expertise of Orange worldwide

Business  
Services

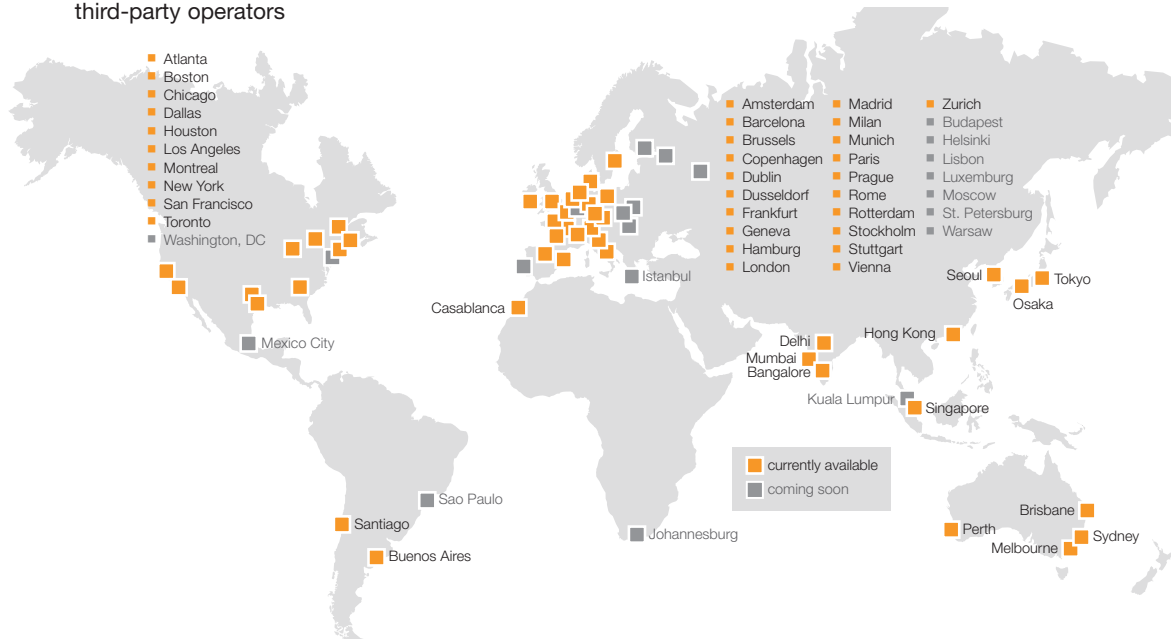

## optimize your interconnection costs

- interconnect your data centers and your principal sites worldwide and rationalize your architecture
- use your existing equipment on a unique, standardized network
- prioritize your flows by data, voice and video with service-class management

## enjoy exceptional coverage and high throughput

- choose from speeds ranging from 2 Mbps to 300 Mbps and even faster
- benefit from a proven ethernet network that spans 46 metropolitan areas in more than 20 countries on four continents
- take advantage of the wide reach of the Orange Business Services network and our agreements with third-party operators

## choose an end-to-end, secure and managed network

- relax with a turn-key solution, fully designed, installed and managed by Orange Business Services
- opt for quality of service with firm maximum downtime commitments everywhere you do business
- rely on personalized help services: real-time, web-based network performance monitoring and expert advice to optimize your network infrastructure

## good to know

 You can depend on our experts to provide the interconnectivity your international sites demand as Orange Business Services is certified MEF-9 and MEF-14 by the Metro Ethernet Forum and has been awarded the 2006 and 2007 MEF prize for "Best Service Provider of the Year in Europe" by the International Engineering Consortium.
