

**Facilitate my
teams'
collaborative
work**

**Business
Together
as a Service
Cisco**

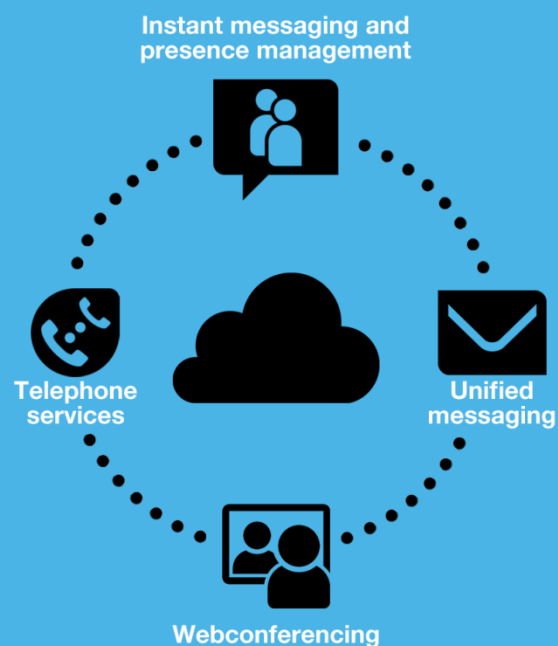

All on-demand communications

- Simplify access to collaboration tools: the employees communicate with each other, share documents, conduct remote meetings at any time, in complete safety
- Business Together as a Service is a secure, Cloud-based unified communications and collaboration solution, hosted in Orange Business Services' data centres in France
- Employees equipped with Cisco certified handsets and high-performance tools adapted to their uses, with a selection of user profiles
- Zero initial investment and monthly billing, automatically adjustable to the number of users and types of profile selected

A unique interface

To make the most of all communication and collaboration tools from any terminal, everywhere and in real time.

**Business
Services**

I allocate user profiles to employees according to their uses

I can very easily switch from one profile to another

- ▲ **Basic fax** ✓
- **Basic** ✓
- **IM/Presence** ✓
- **Standard** ✓
- **Business** ✓
- ▼ **Collaborative** ✓

I manage the solution instantly from my web administrator portal

- Profile supervision and modification
- Addition or removal of communication and collaboration functionalities
- Management of call rights
- Activation of Manager/Assistant screening
- Access to statistics

My employees access their functionalities from their web portal in the office or remotely

- Call forwarding activation
- Organisation of internal or external web conferences
- Creation of dialling shortcuts
- Activation and customisation of the unique number and click to call
- Company directory consultation

Security and support

I benefit from a secure architecture from end to end (24/7 supervision), the service quality of the Orange Business Services network and the support of experts certified in Cisco technologies.

Flexibility

A solution adapted to the needs of employees and the company in real time: creation, modification or removal of profiles and billing adjustable upwards and downwards.

No investment

The solution is hosted and managed by Orange Business Services: no servers, no maintenance charges and automatic software updates at no extra cost.

Cloud computing services supported by recognised and certified expertise:

- ISO 20000 for service management
- ISO 9001 for quality management
- ISO 27001 for the security management system
- ISO15408 for the security certification of common criteria SAS 70 type 2 audit

Master UC certification

Maximum level of expertise in the unified communications and collaboration domain.

Equipment dedicated to collaboration

A range of tested and certified IP, DECT phones and accessories, available for rental or purchase.
