

Orange would like to emphasis the following points:

This information refers to external sources which are subject to change. It should therefore be used for information purposes only. Orange cannot be held responsible for its accuracy;

This information relates to (1) Orange SA 2G/3G networks closure dates for France Country and (2) Orange SA Roaming Partner's available 2G/3G networks closure dates for Countries outside France;

For Countries outside France, Orange would like to underline and draw to your attention that the 2G/3G closures dates indicated in the file for each Country are the latest ones regarding all the Roaming Partners with whom Orange works for the delivering of 2G/3G in the concerned Country but as Orange doesn't work with all of them within your specific Countries mentioned in your IoT Contract, those 2G/3G closure dates may not correspond to your current IoT contractual situation. Also, we urge you to take the greatest precautions in the exploitation of those dates and absolutely invite you to contact your Sales team who will be able to establish with you the applicable 2G/3G closure dates in the Countries corresponding to your IoT contractual situation.

Glossary

All contries are liste by alphabetical order, starting with all 2G countries and below all 3G countries. Each network is splitted by Orange IoT Express (FRAF1 20801) and Orange IoT Advance + French resilience (AAZOR 90131) planning by country.

Status : Indicates if 2G/3G is open or closed.

- **Open** : At least one operator in the country is open
- **Closed / No Roaming Partner** : All operators in the country are closed or the country has no roaming partner with Orange

Tentative closure : If a date is indicated, it is the latest closure date for all open Orange partner operators in the country.

For Orange France 2G:

2 stages of closure will be done in 2026 :

- Phase 1 : **starting March 31st, 2026**, in 9 departments (09-Ariège, 31-Haute-Garonne, 32-Gers, 40-Landes, 46-Lot, 47-Lot et Garonne, 64-Pyrénées Atlantiques, 65-Hautes Pyrénées, 82-Tarn et Garonne)
- Phase 2 : **September 2026** in all French hexagonal area

For Orange France 3G:

3G closure is planned for **end of 2028**.

For Orange Caraïbes (Antilles-Guyane area) 2G:

2 stages of closure will be done in 2026 :

- Phase 1 :

Starting April 21st 2026 in Lamentin, Abymes, Baie-Mahault (Guadeloupe), Cayenne and Rémire-Montjoly (French Guyane)

Starting May 19th 2026 in Le Lamentin (Martinique), Peatree Hill, Rambaud and Marigot (St-Martin), Cul de Sac, Quatre Vents and Colombier (Saint-Barthélemy)

- Phase 2 : **September 29th to November 26th 2026** for all Antilles-Guyane area

For Orange Caraïbes (Antilles-Guyane area) 3G:

3G closure is planned regarding Orange France schedule. For now 3G is planned for **end of 2028**.
