

You need

to find ways to create value for your customers. Starting with practical solutions for your IT and telecoms needs, let us know how we can help you to drive your business forward.

Orange Business Services

Staying competitive isn't simply about improving your company's communications, productivity and security today. It also means thinking about tomorrow. What new demands will you need to meet? Where and when will you expand? How can you simplify your daily business operations to maximize efficiency?

To respond to these challenges, we help you implement new technologies and transform your work methods. We think about your problems from your perspective, and we can do this as we're both an operator and a developer. We orchestrate, operate and optimize your company's digital transformation projects. Our innovative solutions are designed to support you, today and tomorrow.

Keeping you connected

A seamless voice and data network covering

220 countries and regions

450,000 km

of high-speed fiber optic submarine cable

A passion for innovating

To help you stay ahead and grow, we create "smart" products that anticipate your needs based on emerging trends and changes in your markets.

The **5,000 scientists and engineers** in our global Orange Labs network focus on developing technologies for what you'll need next.

Meeting your needs, near and far
