

Government Offices of Sweden connects over 100 locations worldwide with secure Orange Business Services network

- Network meets requirement for high security and increased bandwidth
- Extension of 15-year relationship shows Orange public sector expertise

Orange Business Services has won an extended contract to deliver global networking services for the [Government Offices of Sweden](#) to 100 embassies and consulates around the world. A customer since 2001, the Government Offices of Sweden expanded the current contract Orange Business Services has held since 2013.

Under this new four-year agreement, Orange Business Services will provide networking services to connect the Swedish representation entities abroad securely and reliably. The network combines Business VPN, satellite, Ethernet and internet for sites in a variety of locations, including urban areas, remote places and countries with limited infrastructure.

“There are few organizations that depend as much on their international connectivity as Ministries of Foreign Affairs. We have developed a strong expertise in supporting Ministries on a global scale to improve their operations with reliable and secure communications solutions. Orange Business Services will give Sweden’s Government Offices access to the world’s largest network, along with the peace-of-mind that network security and business continuity are at the very forefront of our business,” said Anne-Sophie Lotgering, senior vice president, Europe, Russia and CIS, Orange Business Services.

Orange Business Services has extensive experience providing integrated ICT services to Ministries of Foreign Affairs around the world, including: Belgium, France, Germany, the Netherlands, Norway and New Zealand.

About Orange Business Services

Orange Business Services, the Orange branch dedicated to B2B services, is not only a telecom operator, but also an IT solutions integrator and applications developer in France and around the world. Its 20,000 employees support companies in all areas of their digital transformation: mobile and collaborative workspaces; IT/cloud infrastructure; fixed and mobile connectivity; private and hybrid networks; applications for Internet of Things, 360° customer experience and Big Data analytics; and cybersecurity thanks to dedicated experts and infrastructure to protect information systems. More than 3,000 multinational organizations and 2 million SOHOs, enterprises and local authorities in France rely on Orange Business Services as their trusted partner.
