

An optimal voice experience with Microsoft Teams

Direct Routing for Microsoft Teams

You chose Microsoft Teams as your hub for teamwork, now you want your users to have the best experience possible.

- Orange Direct Routing service with Business Talk enables PSTN calling direct from Teams
- Simplify your operations and reduce cost with one worldwide voice provider
- Eliminate onsite equipment by leveraging our cloud-based architecture
- Digital voice enables you to order, configure and manage your voice service in real time for maximum flexibility and control
- Managed local voice gateways and SBC's provided where restrictions exist on service availability or to interoperate with legacy telephony systems
