

A customized hub for more efficient teamwork

Microsoft Teams with Orange

Take teamwork to the next level

You have chosen Microsoft Teams as your hub for teamwork, and you want your users to have the best experience possible.

Our team of Microsoft experts can help you:

- Understand your priorities and how your lines of business work and then automate mundane tasks to improve business process efficiency
- Design your customized solution
- Collect data, define the best solution and prepare a readiness assessment
- Integrate Teams into your unique environment
- Ensure user adoption with training and change and success management

**Business
Services**

A customized solution to meet your individual needs

Business Together Microsoft offers a full service catalog for Microsoft Teams. Our “à la carte” approach lets you choose the support you really need:

- Define your vision of workspace hub
- Transition at your own pace
- Boost user engagement
- Drive success through smarter ways of working

Define your own solution

Simplify collaboration and improve your users' experience by migrating to a full O365 environment with a single user client: Teams.

Direct Routing with Business Talk SIP Voice

The Business Together Microsoft Teams Direct Routing service and Business Talk enable PSTN calling wherever you need it.

- Call outside your business from 80+ countries
- Use local voice (DID, emergency services) in 50+ countries
- Minimize onsite equipment by leveraging our cloud-based architecture
- Simplify your operations and optimize costs with one worldwide voice provider

Digital voice enables you to order, configure and manage your international voice services in real time for maximum flexibility and control.

Office 365 Tenant Management

With Office 365 Tenant Management, your end users will enjoy a personalized, always up-to-date workspace based on Office 365 applications. As an administrator, you'll have:

- Delegated admin privileges, so you can focus on day-to-day business activities
- Opex flat fee pricing per user for easy cost budgeting
- Choice of bundles with a simple approach to Microsoft Teams delivery: Basic, Enhanced or Custom services
- 24/7 service desk, configuration and subscription management
- Monthly reports, analyses and service reviews

Best-in-class customer experience and respect of Microsoft's guidelines

Our full range of complementary offers include:

- Practical guidance for cloud voice (Qualified Partner)
- Move to Phone System for telephony with hosted/managed SBCs, plus legacy PBX management
- End-user endpoints: video, phones, headsets, analog
- Security by design
- Business integration through APIs and bots to enhance workflow processes
- Customer Success Manager to ensure an outstanding service and end-user experience

+200

Microsoft-certified professionals at your service where you do business

We'll customize your solution around your company identity, your business objectives and needs, and your users' preferences. You won't just have Microsoft Teams, you'll have your unique Microsoft Teams.
