Ordering

Billing

Management
Inventory, reporting...

Incidents

Enhance productivity with online tools that put you in control of your solutions, 24/7.

- Take advantage of self-service with automated transactions that deliver near-real time results.
- Stay informed about a wide range of activities such as ordering, inventory, billing or incident status.
- Manage quotes, orders and control invoices to stay within your budget.
- Give every user the appropriate level of access to the information they need.

**Business
Services**

Quickly and easily manage your Orange solutions with more control and better efficiency

Order autonomously

- Post your quote requests, track quote status and turn quotes into orders.
- Review and track your orders for additions, cancellations and modifications.

Keep control on your budget

- Benefit from e-invoicing, view and download invoices, credit notes and billing reports.
- Submit billing queries online directly to the billing team.
- Receive email notifications when reports are available.

Simply manage all your solutions

- Use detailed reports to maximize usage, quality and performance of your solutions.
- Consult inventory of your solutions: components, status, devices details.
- Request changes when you need to adapt your solutions.

Report and track incidents

- Create and track trouble tickets for service issues.
- Manage entire lifecycle of incidents.
- Easily track resolutions with dashboard and email notifications.

Need information or assistance?

- Find all your service management documents in one convenient and secure place.
- Access tutorials, videos for online help or contact our support team.
