

Microsoft Teams Rooms by Orange

End-to-end solution for your room management

Microsoft Teams Rooms (MTR) provides an inclusive, simplified and more efficient alternative to the old-fashioned conference room setup strategy. Both users in the office and working remotely can connect through the same digital experience.

Need Build or Run services? Or both?

It's up to you. We can tailor our offer depending on your current and future needs for video meeting solutions.

Plan, Deploy & Build:

- Service Room category recommendation
- Service deployment preparation
- MTR account configuration
- MTR delivery
- Onsite physical installation
- MTR acceptance test

Standard Run:

- Service desk and end-user assistance 24x7
- Proactive monitoring (Soft & Hard)
- Incident management (Soft & Hard)
- Release and vulnerability management
- Dashboard (Rooms health, app and hardware errors, last room restart)

Orange à la carte Microsoft Teams Rooms offer

Walk In / Take Over Management

of your legacy SIP (Cisco, Poly, etc.) video environment

Cloud Video Interop

out of the Orange cloud to enable interop between legacy SIP video (Cisco) and Microsoft Teams

Pre-sales consulting

Navigation in MTR equipment

Build

Onsite installation of MTRs and remote enrollment of new MTRs in your tenant

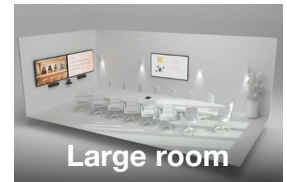

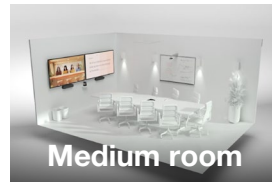

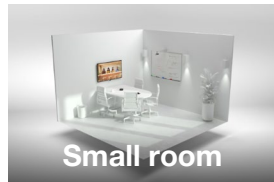

Run

Management of your Microsoft Teams Rooms, including proactive supervision

Meeting room solutions

We can bring Microsoft Teams into virtually any meeting room, depending on individual space and device requirements. We offer a wide range of carefully selected conferencing hardware that paves the way for effective live video communication and interaction. Everything is centrally managed from the cloud for added ease of use and a high level of security.

- Inclusive and interactive
- AI-powered audio with (noise-canceling) microphones
- Intelligent cameras, even tracking specific speakers
- Meeting entrance with a single-touch
- Secured, patched, up-to-date

Why Orange for Microsoft Teams Rooms?

- Holistic approach, including equipment resale, Cloud Video Interoperability, Direct Routing or Operator Connect and complementary Contact Center solutions
- Global service availability – we fully manage everything “as a Service,” reducing risk and driving value for you. Global coverage with local support, local billing (no equipment on premises)
- Best-in-class user experience – high level of expertise and experience on Microsoft, back to 2008 Office Communications Service
- Partner of the Year Finalist for Microsoft Teams in 2021 and 2020
